

Mermet E-Screen 7510 Sheer fabric range

Quality fabric made in Australia
by a trusted brand, Mermet

ABOUT THIS PRODUCT

E-Screen 7510 is a Classic Screen fabric. Natural light is vital for well-being and E-Screen 7510, with a more open weave, will maintain the very best view to the outside of any of Mermet's internal Sunscreen® fabrics. E-Screen 7510 has a regular basket weave, giving a fine even texture with excellent glare control.

E-Screen 7510 blocks up to 90% of UV rays, helping to protect carpets and furniture from fading, and saving energy by reducing the need for air conditioning and heating.

E-Screen 7510 creates a discrete blind that is perfect in a modern or traditional setting, where the very best view is desired.
