

Motorised Roller Blinds

There are lots of options available for Roller blinds to be motorised so please see the sub category below

Luxaflex Q Motion

LUXAFLEX® Roller Blinds with Qmotion Technology were designed with a focus on reducing the total cost of motorisation for the home owner. It is the only super quiet battery operated blind on the market that offers batteries inside the roller tube. The result is a perfectly balanced roller blind system using an integrated battery powered motor to operate the blind quietly and seamlessly. Qmotion Technology offers a level of integrated motorisation never before seen in blinds.

Luxaflex Hunter Douglas Remote or wall switch

HDR is the Hunter Douglas system for automated Roller Blinds created by the world's leader in window furnishings. The sleek Touch Sensitive remote control allows simple remote control as well as switch and automation control via an inbuilt switch connector. The Hunter Douglas HDR is quiet, powered by an AC-240 volt motor.

Somfy remote or wall switch

The Somfy RTS motors all feature a favorite position, allowing you to easily stop your blinds in the same position time after time. Setting your favorite position is easy, once done simply press the 'MY' button on your Somfy remote control. With a range of 200 metres in open space, or around 20 metres through two reinforced concrete walls, you can operate your Somfy motor from anywhere in the home.

Luxaflex Merger remote or wall switch

Merger is an affordable motorisation alternative for your roller blinds. There is an option for small narrow blinds, or larger single and linked blinds you can control up to four blinds

individually or more when operated as a group.

Luxaflex URemote

Control your LUXAFLEX® Roller Blinds from your iPhone® or iPad® Luxaflex Window Fashions and uRemote have combined to deliver a simple cost effective way of controlling your new Luxaflex Roller Blinds from a single screen on your existing Apple® portable device. Each blind location is daisy chained together, creating a network of blinds within the house. At the end of the daisy chain is the Luxaflex Automation Bridge and the uRemote control box. An iPhone®, iPad® or iPod touch® communicates with the uRemote box via your home Internet router. You can control your blinds from outside the home - Remote control from outside of your house is possible when you have a home Internet connection that is always on. Ask your uRemote specialist about configuring this option for you. Control other devices in your house with the same uRemote technology, from your garage door to your lighting and more.

Luxaflex DUETTE® Shades with PowerRise

PowerRise with Platinum Technology provides touch-of-a-button operation for precise light control, privacy and enhanced child safety. Choose among a hand-held remote or wireless wall switch. The convenience and accessibility of the battery operated Luxaflex PowerRise Operating System has been elevated with the enhanced next generation PowerRise Platinum Technology. No complicated wiring necessary. Easy to install, operate and maintain. Combines two proven wireless technologies - infrared (line-of-sight) and radio frequency (point anywhere). Quiet operation, Cordless for enhanced child safety, Can stop at a customised, preset position, Colour coordinated hardware & Perfect for hard to reach windows. Long lasting and easily replaced batteries.

Motorised Roman Blinds by Luxaflex Window fashions

Available in either Remote control, home Automation or wall switch control, now you can open your Luxaflex Roman blinds with the touch of a button. Having your Roman blinds means no cord controls or chain controls, for a child safe and stylish sleek look. Motorised Roman blinds have a roller tube under the fabric so when you press the control button the tube revolves to open or close the blind. You can of course control upto 6 blinds at once too, with the press of one button.

Luxaflex 25mm Slimline Motorised blinds

The slats are 25 mm wide and are made from special flexible “bounceback” aluminium, they are resistant to abrasion, peeling, scratching, dulling, discoloration and corrosion and perfect for large windows, special shaped windows or standard window sizes. Control your slimlines via Remote control (switch control is also an option) to tilt and raise the blinds or an autotilt option is also available allowing tilting of the slats via remote control without the expense of full tilt and raise motorisation

Luxaflex 50mm Classic Motorised blinds

The slats are 50 mm wide and are made from special flexible “bounceback” aluminium in a range of popular colours in a choice of 8% perforation or without perforation. They are resistant to abrasion, peeling, scratching dulling and discoloration. Control your 50mm blinds via Remote control (switch control is also an option) to tilt and raise the blinds or an autotilt option is also available allowing tilting of the slats via remote control without the expense of full tilt and raise motorisation.

Luxaflex DUETTE® Shades with PowerRise

PowerRise with Platinum Technology provides touch-of-a-button operation for precise light control, privacy and enhanced child safety. Choose among a hand-held remote or wireless wall switch. The convenience and accessibility of the battery operated Luxaflex PowerRise Operating System has been elevated with the enhanced next generation PowerRise Platinum Technology. No complicated wiring necessary. Easy to install, operate and maintain. Combines two proven wireless technologies - infrared (line-of-sight) and radio frequency (point anywhere). Quiet operation, Cordless for enhanced child safety, Can stop at a customised, preset position, Colour coordinated hardware, Perfect for hard to reach windows, Long lasting and easily replaced batteries

LUXAFLEX® BEYOND WOODS® Blinds

Do you want the classic look and style of a timber venetian blind in a room where timber just isn't practical? LUXAFLEX® BEYOND WOODS® Blinds are the perfect solution. The smooth finish of Beyond Woods Venetian Blinds provides a practical alternative to wooden blinds. Constructed from engineered polymer, they present the perfect solution to rooms such as bathrooms, kitchens or laundries where high humidity and temperature changes can affect normal wooden blinds. Beyond Woods Blinds can also be completely motorised.

Luxaflex SILHOUETTE® with PowerRise

PowerRise with Platinum Technology provides touch-of-a-button operation for precise light control, privacy and enhanced child safety. Choose among a hand-held remote or wireless wall switch. The next generation in LUXAFLEX® Window Fashions.

The convenience and accessibility of the battery operated Luxaflex PowerRise Operating System has been elevated with the enhanced next generation PowerRise Platinum Technology. No complicated wiring necessary. Easy to install, operate and maintain. Combines two proven wireless technologies - infrared (line-of-sight) and radio frequency (point anywhere). Quiet operation, Cordless for enhanced child safety, Can stop at a customised, preset position, Colour coordinated hardware, Perfect for hard to reach windows & Long lasting and easily replaced batteries

Luxaflex Luminette with PowerRise
PowerRise with Platinum Technology provides touch-of-a-button operation for precise light control, privacy and enhanced child safety. Choose among a hand-held remote or wireless wall switch. The next generation in LUXAFLEX® Window Fashions

Luxaflex Luminette Privacy sheers offer a sophisticated vertical window covering solution. The soft fabric vanes can be traversed to open and close, or tilted to control light and privacy, and with PowerRise Platinum Technology this is achieved with the touch of a button.

LUXAFLEX® COUNTRY WOODS® Venetian blinds

If you appreciate the look and feel of natural timber, then LUXAFLEX® COUNTRY WOODS® Venetian Blinds are the perfect choice. Available in a range of colours and lacquered timber finishes, Country Woods Venetian Blinds can be colour co-ordinated to suit your décor. Country Woods Timber Venetians blend simple functionality with classic style to suit a variety of home environments. Made to measure to perfectly fit your windows, these distinctive blinds are kiln dried and processed to maximise stability and are available in cedar and basswood options. Incorporating timber window furnishings in the home can provide a distinctive heritage look whilst keeping a subtle design flow, which is one of the reasons why timber venetian blinds are an investment you will be proud to own. For the ultimate in convenience, both the tilting and the raising action of your Country Woods Venetian can be controlled by the flick of a switch or by remote control.
